PROMOTIONAL WORK

Bringing our wealth of video and interactive production experience to the table, we are able to produce promotional videos to the highest quality. Utilising graphics, corporate imagery, video and sound, we have produced work for a number of well known established companies for many years.

We have a team that specialise in producing videos for the corporate/public sector. This includes:

- Taking briefs
- Writing scripts
- Costing
- Preparing proposals

SPORT

Whether it be indoors or out in the wet, home or abroad, we can offer you equipment and crew to cover any event

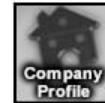

With experience filming for the BBC and ITV behind us, we feel we can deliver time and again at the sporting event of your choice. From extreme sports to Three Day Eventing, we will capture all the action.

The essence of any sporting event production is to capture the action as it happens with pace and interest, no matter what the location. Our vast experience in this field ensures we can deliver.

NEWS

Getting close to subjects and capturing what really matters. That is our ethic towards broadcast quality news footage.

Happy to put ourselves in any position the situation requires, we will not miss a shot or sound bite. From conferences to rallies our crew will capture what is important, when it is important.

Bringing our own equipment and background in location filming we offer all that a news recordist may need. The end result being broadcast quality news footage delivered with the minimum of fuss.

VIDEO TOASTER 4

Whether editing for broadcast or event projection, we have a choice of edit suites, fixed and mobile to suite any project, from simple off-lines to complex multi-layering and animated graphics.

Video Toaster 4 is the world's most powerful and mature, uncompressed, multi-format, multi-standard live-production workstation. VT[4] is designed to meet the highest broadcast specifications for a worldwide market. Intuitive, polished, complete, with the rock-solid stability of a mature technology from the leading innovators in video production tools, VT[4] LIVE! is ready to meet your production needs.

"The 'studio' you are shipping with VTI41 is better equipped than the NRC affiliate where I was

ON THE FLY

When it comes to staging an event these days, raising your image with your clients is all important. With an 'on the fly' video, shot, edited and screened the same day, our high-end facilities will not fail to impress.

We bring our own broadcast standard filming equipment and portable high-end video editing suite to your event. Over the course of proceedings we capture and edit literally 'as the show goes on'. The end result is a highly individual video of unparalleled immediacy. Ideal for the closing of event or merely as a piece of visual imagery to impress clients. It brings life and fun to any event.

CONFERENCE OPENERS

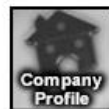

We all know how important it is to engage the audience from the very outset of an event. Understanding how events work and drawing on our national and international experience in this field, can give your conference a kick start by providing stimulating footage and by engaging your audience at the opening of your event.

We are able to see productions right through from pre planning to final editing. We work closely with our clients at every stage resulting in stylized yet personal openings. Use us to stamp your mark on your event.

CARBON NEUTRAL PROJECTS

All video projects now have carbon offsetting as standard

MPL Broadcast is soon to become one of (if not the) first production companies to operate with the environment at the top of the agenda. We intend to reduce the impact we have on the environment in the following ways:

- Liquid Petroleum Gas
- Carbon neutral video projects
- Electricity usage reductions

We are becoming the countries only production company
